

COMMERCIAL AND FINANCIAL

Increase in Visible and Enormous Primary Receipts Lower Chicago Wheat.

PROVISIONS SHOW IRREGULAR DECLINES

Corn Closes Fractionally Higher on Strong Outlook for Good Export Demand—Oats Are a Shade Higher.

CHICAGO, Oct. 10.—Decidedly heavy quotations from Liverpool and a heavy increase in the visible supply made wheat heavy today and caused a decline of 1/4 to 1/2 at the close. Corn was firm and closed 1/4 to 1/2 higher. Oats closed a shade higher. Provisions closed a shade to 1/2 lower. A decline of 1/2 to 1/4 marked the opening quotations in wheat. Even at that, however, there was little demand and under liquidation by longs, mostly of a local nature, a still further recession in prices took place. Liverpool was slightly lower at the start, but developed radical weakness before the close of the session there. It reflected the views of English traders in regard to the war prospects in the Transvaal which were evidently influenced by the news that the British had captured the city of Pretoria and that fact had a strong influence in local trading. An equally important factor was the prospect of a heavy increase in the visible supply. The increase was finally announced at 2:00 p.m. when the local market showed an increase of 1/2 to 1/4 bushels. Another source of weakness was the enormous primary receipts, 2,400,000 bushels, compared with 1,200,000 bushels for the week ending Saturday. The opening price for December was 75 1/2 to 76 1/2, against Saturday's closing of 75 1/2 to 76 1/2. The market was generally quiet, however, and when satisfied the market again slowly declined, keeping on the downward course until the afternoon. Trading was narrow. The forthcoming government crop report had a restraining influence on the market, and was not another factor in the weakness. The price was almost continually under the influence of a heavy supply of wheat, and it was not until the afternoon that a slight indication of a rally appeared. The December price for wheat was 75 1/2 to 76 1/2. A break of almost a cent was seen to tempting for shorts, who covered quickly toward the close. The market advanced to 75 1/2 to 76 1/2, where the market closed. A report from New York that sixty bushels had been ordered for export by some influence in causing the late rally. Minneapolis and Duluth receipts were 1,215 cars, against 1,120 cars for the week ending Saturday. Chicago receipts for two days were 1,200 cars, against 1,100 cars for the week ending Saturday. World's shipments aggregated over 8,000,000 bushels, shipments from Russia being 1,200,000 bushels, for the week ending Saturday. For two days there were 1,200,000 bushels. Much needed rain was reported in the west and north, particularly in the north, and during the morning was active and strong. The market was generally quiet, however, and when satisfied the market again slowly declined, keeping on the downward course until the afternoon. Trading was narrow. The forthcoming government crop report had a restraining influence on the market, and was not another factor in the weakness. The price was almost continually under the influence of a heavy supply of wheat, and it was not until the afternoon that a slight indication of a rally appeared. The December price for wheat was 75 1/2 to 76 1/2. A break of almost a cent was seen to tempting for shorts, who covered quickly toward the close. The market advanced to 75 1/2 to 76 1/2, where the market closed.

OMAHA GENERAL MARKET.

Condition of Trade and Quotations on Staple and Fancy Produce.

EGGS—Receipts light; market firm at 16. BUTTER—Common to fair, 14c; choice, 14 1/2c; separator, 22c; gathered cream, 14c; extra, 14 1/2c.
